Thirteen years ago a new family was born within these walls. As we walked through those doors as kindergarteners, teachers became our second parents, encouraging, loving and inspiring us. Our classmates became a part of our family. We are always helping one another, laughing at each other, and fighting like real brothers and sisters. Underclassmen have turned into our little brothers and sisters reminding us to stay true to ourselves. As we grew older our family expanded, welcoming new classmates with open arms, but still remaining a tight knit family. As we prepare to leave this family and start a new one we will never forget the encouragement, love and support we have received from our second family at Climax-Shelly School.

# Dedication

Mom, Brothers and Sisters...  
Thank you for always being there for me when I need you (and when I don't).  
I adore all of you. --Cherith

Dear Mom and Dad,  
Thank you for everything. If it weren't for you guys adopting me, I have no clue where or what I'd be. So thanks for everything. --Skylar

Mom, Dad and Evan  
Thank you for everything; the support, encouragement, advice and love. --Claire

Dear Dad,  
Thank you for shaping the person I have become. I have your laugh and your sense of humor and for that I thank you. You left pieces behind and they show everywhere. I love you. --Janelle

Thank you for always helping me out and for calling me out when I need it. --Wayne

Thank you for loving me, supporting me and always being there for me! --Rachel

I'm there if you need me, love your big brother. --Kyle

Thank you mom and dad for being with me through thick and thin. I love you guys. --Taylor

*We, the class of 2013 would like to dedicate this year's yearbook to individuals that have always been there for us, our family.*

*The family we were born into, our parents, grandparents, siblings, cousins, aunts and uncles have been there from the moment we took our first breath. They have given us unconditional love, helped guide us when we were lost, and been witness to the moments we wish to forget. As we prepare to leave the comfort of their nest and spread our wings to a new beginning we will always remember where we came from.*

*Thank you for everything you have done for us over the years and your continued support in the years to come.*

Mommy and Daddy,  
There is not enough space on this page, or any, to tell you how much I appreciate and respect you. There's no one I'd rather see watching me grow and live my life. I love you guys so much and the dent in mom's car is not my fault. --Richie

Dear family,  
Thanks for everything you've done for me, through good times and bad. It really means a lot to me. --Kailer

Thank you for being there for me when I really needed it, especially this year. I love you. --Jessica

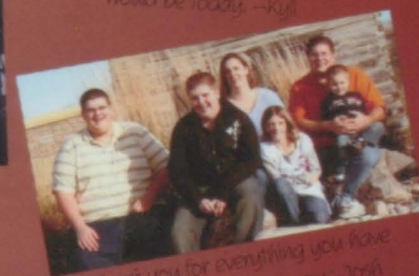

Thank you for everything you have done for me. I may not show it sometimes but I am truly grateful to have your support over the years. I love you. --Elliah

Thank you for teaching me so many different things and shaping me into who I am today. Without you I don't know where or who I would be today. --Kyl

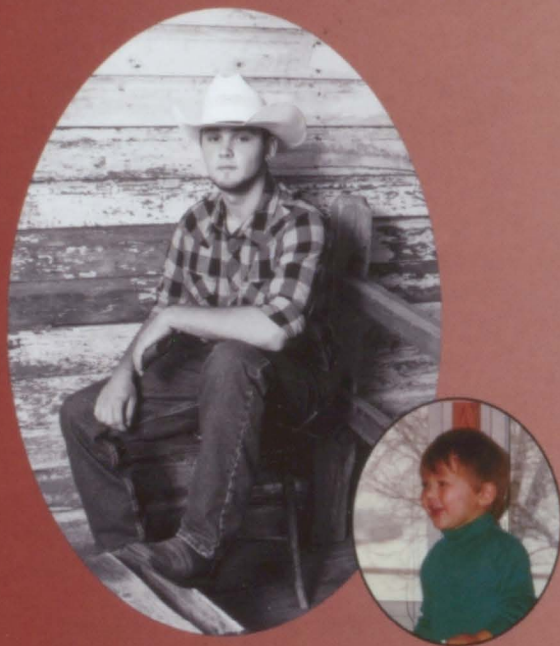

Dear Family,  
Thank you for always being there for me and supporting me in everything I've done. --Patrick

Thank you for everything you have helped me with. Love you. --Joah

Our teenage siblings. They annoy us, fight with us, but all the while encouraging us. We try to be the leaders of the high school hall and wait to pass down not only our knowledge, but also the treasured blue lockers. As we leave these walls, our advice to you is to try your best, to remember to be unique and always remember there is someone looking up to you.

Our little brothers and sisters. They help us remember to stay young and take time to play. We try to teach them the importance of friendship, honesty, and most importantly the value of nap time. As we walk the halls we are aware of the little faces looking up at us. They see us playing drums, kicking a field goal, or winning the science fair and dream of doing the same thing. Our actions are mimicked in their actions and it's because of them we are who we are today.

# Organizations

Our team members and advisors have become our parents and siblings. Our advisors have taught us that hard work and dedication can lead to great success. Our team members have provided us with support and leadership whenever we have needed it. They offered us praise when we excel and encouragement when we faltered, but remained on our side the entire time. Through the practices, rehearsals, concerts and competitions we have learned to work together as a family.

The skills and abilities we have developed through these organizations will stay with us long after we leave.

# What's New

The playground committee, Kris Spaeth, Tracy Solheim, Kristine Chandler and Dorene Erickson, selected the new playground this summer. The old equipment was removed and the kids are having fun on the safer new equipment.

This summer all of the water pipes in the school were replaced.

A new lawn mower and sweeper were purchased this year.

The store room in the kitchen received new shelving over the summer.

The fire alarm system was replaced this summer. The new alarm sound is much louder than before.

The kitchen received a new robot coupe through a grant.

The music room received 36 new chairs and 12 new music stands this school year.

The need for more laptops was very apparent last year. This summer 36 laptops were purchased along with two new carts to store them in.

Four new teachers were added to the staff this year. Andrea Adrian, Mathi Kelly, Special Ed., Rachel Richtsmeier, Middle School/Enrichment and Ben Parkin, Phys. Ed.

A security system was installed this winter. There are twelve cameras around the school, both inside and out.

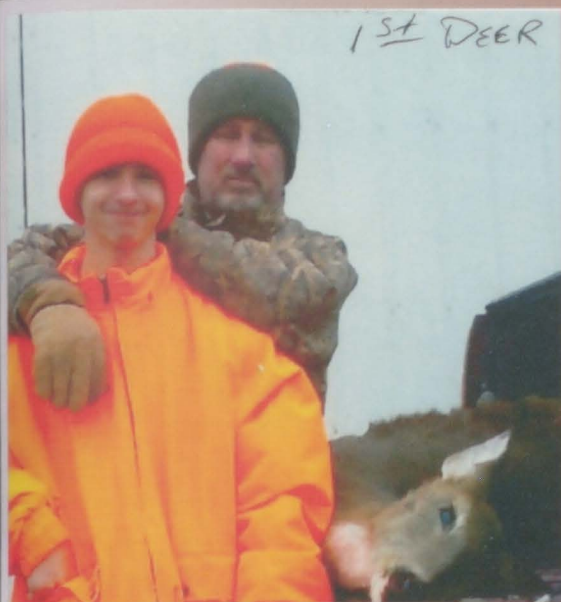

In order to accommodate the increasing enrollment, there were some room changes this summer. The wall between the second and third grade room was removed. The first grade room moved into the new larger room and second grade went back to their original room. The third grade room was moved to the portables, the fifth grade room moved to the Ag. room and the Ag/art room moved to the first part of the shop. All of the mechanics classes are held in the back part of the shop.

Thirty-six iPads were purchased for the students along with iPads for all of the faculty this winter.
